Style, Performance, Practicality....

# PILOT 2

The Westport Pilot range of boats are tough, seaworthy and renowned for their large practical deck space and superb performance.

The Westport Pilot2 is an open dinghy with plenty of beam and stability ideal for rowing and outboard motors. Due to her hull form she is capable of higher speeds with small outboards and can be used in sheltered coastal waters with three crew. With a full internal deck moulding, plenty of locker storage forward & aft and clear open deck areas she is great for exploring rivers, family picnics, angling or as a mooring tender.

## Details
